

Technology consultant and software engineer focused on digital products, business process improvement and AI adoption. I build workflow automations and system integrations, drawing on a Java/Spring Boot background. I guide AI-assisted development with a focus on clear requirements, system integration and maintainable implementation.

EXPERIENCE

- Jan 2024 – Present • **Comtrade System Integration** Belgrade
Software Engineer
- Work with clients to clarify requirements and define process flows, APIs, data models and acceptance criteria.
 - Build Java/Spring Boot REST components for document lifecycle and metadata workflows on Alfresco DMS.
 - Refactored legacy modules with consistent logging and error handling, reducing incident triage time.
 - Lead debugging of urgent production issues across frontend, backend and DMS integration layers.
 - Use AI coding agents (Claude Code, Codex, OpenCode) to implement scoped tasks and iterate on changes.
- Feb 2022 – Jan 2024 • **Ibis Solutions** Belgrade
Technical Consultant
- Worked with business analysts and client experts to turn requirements into technical flows.
 - Developed and maintained backend services and internal APIs using .NET and SQL Server.
 - Contributed to automation integrations (UiPath, Power Automate) and designed relational data models.
 - Led debugging and refactoring of legacy automation logic; wrote process and handover documentation.
- Jan 2021 – Feb 2022 • **Saga Beograd** Belgrade
Software Engineer
- Developed, tested and deployed automation solutions for public-sector clients using UiPath.
 - Helped design document and case management automations and monitored them in production.
 - Integrated automations with backend systems via REST APIs; supported clients through onboarding.
- Jul 2018 – Dec 2020 • **Vector-IT d.o.o.** Remote
Software Engineer (Freelance)
- Designed and built backend systems for internal and client-facing business applications (Java, SQL).
 - Worked directly with clients on requirements, data models, development, deployment and support.

PROJECTS

- 2026 – Present • **Tripollon** Independent project · In development
Product definition & development · Java, Spring Boot, PostgreSQL
- Developing a B2B/B2C travel platform for agencies and travellers, with shared itineraries.
 - Lead agency interviews, define MVP scope and work on product development.
- Aug 2023 – Jul 2024 • **Safe Space (Siguran Prostor)** Belgrade
Volunteer Consultant, Technical & Product (non-profit)
- Turned licensed therapists' needs into platform structure, content hierarchy and user flows.
 - Built and launched the responsive website end to end; defined branding (logo, palette, tone of voice).

SKILLS

Consulting	Product discovery	Product development	Requirements analysis	Process improvement	Solution design
Software	Java	Spring Boot	REST API design	System integration	.NET / C#
Data	PostgreSQL	SQL Server	Relational modelling		
Systems	Alfresco DMS	E-invoicing	Workflow automation	UiPath	Power Automate
AI	AI adoption	AI automation	Claude Code	Codex	OpenCode MCP
Languages	Serbian	English			

EDUCATION & TRAINING

- 2025 • **B.Sc. Computer Science**, Računarski fakultet (RAF), Belgrade
- 2019 • **B.Sc. Information Technology**, Project Management College, Belgrade
- Jul 2026 • **Anthropic courses**, Claude API · MCP (Introduction, Advanced Topics) · Claude Code in Action · Agent Skills
